#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

1. The examiner acknowledges the receipt of the amendment filed July 3, 2007, Claims 1-4, 6, 11-14, 16-21, 23-29 are pending.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.

Art Unit: 1713

4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

4. Claims 1-4, 6, 11-14, 16-21, 23-29 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Wool et al. (US 6,121,398), for the reasons adequately set forth from paragraph 7 of the office action of April 6, 2007.

Wool et al. (col. 21-22, claims 1, 3, 18) disclose a resin system comprising styrene (col. 21, claim 1); soy bean oil (col. 21, claim 3), and bird feathers (col. 22, claim 18). Wool et al. (Figure 1B; col. 2, line 41-49) clearly disclose that the soy bean oil employed is an acrylated epoxidized triglyceride soy bean oil. Although Wool et al. are silent that the disclosed bird feathers are feather mats, in view of that feathers inherently possess barbules that are organized and are easily stacked together into interlocking form, the examiner has a reasonable basis that the claimed "feather mats" feature is inherently possessed in Wool et al. Since the PTO does not have proper means to conduct experiments, the burden of proof is now shifted to applicants to show otherwise. In re Best, 562 F.2d 1252, 195 USPQ 430 (CCPA 1977); In re Fitzgerald, 205 USPQ 594 (CCPA 1980).

Applicant's arguments filed July 3, 2007 have been fully considered but they are not persuasive. Applicants argue that the claimed invention has "unexpected results" properties when the amount of feature is at least 10 weight percent. However, because

Art Unit: 1713

Wool et al. (col. 22, claim 18) in the claim does not limit the amount of feather to be incorporated, the claim is broadly interpreted to be at any amount, which fully encompasses the claimed "at least 10% by weight" as claimed. Furthermore, applicants must recognize that the use of "unexpected results" is not effective in overcoming the 102 portion of the 102-3 rejection set forth.

Regarding applicants' argument that Wool et al. (col. 22, claim 18) requires one of ordinary skill in art to select or to choose a weight percent, applicants must recognize that the claim 18 of Wool et al. fully encompasses the weight percent as claimed. Therefore, the examiner has a reasonable basis that the issue at hand does not involve selecting or choosing a weight percent.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
